

AN ACT

RELATING TO THE PUBLIC PEACE, HEALTH, SAFETY AND WELFARE; PROVIDING FOR ACCOUNTABILITY IN GOVERNMENT;
ESTABLISHING SUPPLEMENTAL PERFORMANCE MEASURES AND TARGETS FOR CERTAIN STATE AGENCIES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. **SHORT TITLE.**--This act may be cited as the "Supplemental Performance Measures and Targets Act".

Section 2. **DEFINITIONS.**--As used in the Supplemental Performance Measures and Targets Act:

A. "activity" is a strategy or work process designed to achieve a common purpose with a given set of inputs, one or more of which constitute a program;

B. "efficiency measure" is an indicator of the cost of an activity in dollars or employee hours per unit of output or outcome;

C. "explanatory data" means information that can help users understand reported performance measures and to evaluate the significance of underlying factors that may have affected the reported information;

D. "outcome measure" is an indicator of the accomplishments or results that occur because of services provided by a program and is a measure of the actual impact or public benefit of a program;

E. "output measure" is an indicator of the quantity of a service or product delivered by an activity or program;

F. "performance measure" means a quantitative or qualitative indicator used to assess a state agency's performance;

G. "program" means a set of activities undertaken in accordance with a plan of action organized to realize identifiable goals and objectives based on legislative authorization;

H. "quality measure" is an indicator of the quality of a good or service produced and is often an indicator of the timeliness, reliability or safety of services or products produced by a

program; and

I. "target" means the expected level of performance of a program's performance measures.

Section 3. **GENERAL PROVISIONS.**--

A. Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which performance measures are established in Section 4 of the Supplemental Performance Measures and Targets Act shall file an annual report, except as otherwise specified, with the state budget division and the legislative finance committee analyzing the agency's performance relative to the performance measures and targets established for fiscal year 2002. The report shall compare actual performance for the report period with targeted performance based on the level of funding appropriated in the General Appropriation Act of 2001. In developing guidelines for the submission of agency performance reports, the state budget division shall establish standards for the reporting of variances between actual and targeted performance levels. The annual report for the period ending June 30, 2002 shall be filed with the state budget division and the legislative finance committee on or before September 1, 2002.

B. It is the intent of the legislature to continue to improve implementation of the Accountability in Government Act by emphasizing measures that are meaningful to the public and measures that cross agency lines by including them in the Supplemental Performance Measures and Targets Act and the General Appropriation Act of 2001. The legislature expects implementation of the Accountability in Government Act to improve as additional agencies submit performance-based budget requests and as agencies, the department of finance and administration and the legislative finance committee continue to cooperate on the development of programs, performance measures and targets. For those agencies that have already submitted performance-based program budgets, the legislature expects continued refinement of measures to improve their consistency, reliability and relevance, and continued emphasis on defining and measuring the constituent activities of a program.

C. Unless explicitly stated otherwise, each of the program measures and the associated targets contained in the Supplemental Performance Measures and Targets Act reflect performance to be achieved for fiscal year 2002. In the case where there are no targets for output, outcome, efficiency or

quality measures, agencies are expected to develop baseline data for fiscal year 2002 and to propose targets when submitting budget requests for fiscal year 2003.

D. In concert with the annual agency strategic planning process required by the state budget division, the state budget division shall require that strategic plans, including internal and external assessments and development of programs and performance measures, be coordinated among the state agency on aging, human services department, department of labor, department of health and the children, youth and families department.
